Subject: Richardson Material Import

Ron:

September 1st is this coming Saturday. United Park will be entering another billing cycle on the equipment that is being used to spread the materials being imported onto the Richardson site. I was wondering if you had an idea of what may to go to Richardson over the course of the next 30 days. It would be helpful to avoid the sizeable charge on the equipment we have been using.

The only project I know of with a sizeable quantity destined to Richardson is the Ralph Evans project. I do not know his timing however. Do you know if he will be hauling this season?

With the Anchor opened up to receive dirt, Montage is uncertain or won't commit to a quantity that they have left that could to go to Richardson.

You input on this will be appreciated.

Thanks

Kerry
